www.mevas.eu

Independent Used Machinery Inspections:

- Local inspectors in many countries
- Very experienced team
- All kind of heavy machinery

Pre-delivery inspections for all kind of used heavy equipment by our international team of engineers.

Valuation of earthmoving machines. For a whole fleet or a single machine.

Professional documentation and sharing of inspection reports in the Cloud including Photos & Video.

Since 2006 we perform more than 600 machine inspections per year. We examine Earthmovers, Mobile Cranes, Reach Stackers, Trucks, Concrete Pumps, Forestal Machinery, Rock Drills, Screen Plant and Crushing Equipment.

Mevas is independent and not trading with any kind of machinery. All inspection info remains confidential.

Don't pay good money for a bad machine. We inspect it for a fair price. It cost less than you could lose.
